Service Parts

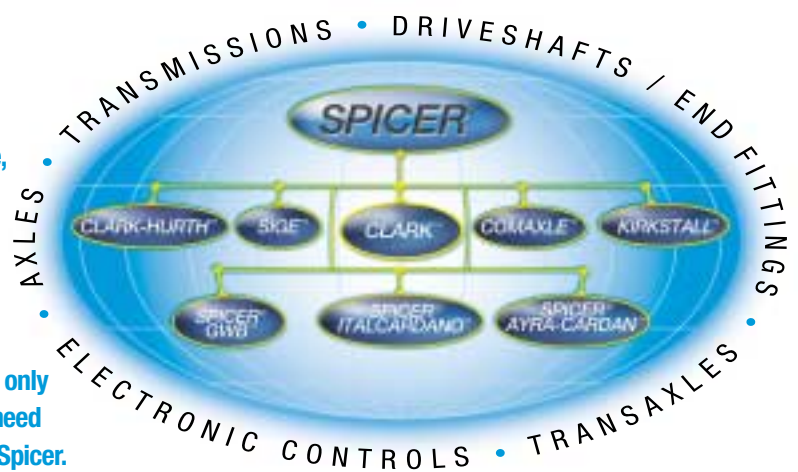

SPICER®

Off-Highway Systems Service Parts

Dana Corporation's Off-Highway Systems Service Parts delivers worldwide, single-source convenience by offering a complete package of genuine original equipment service parts under the Spicer® name. We offer replacement parts and service for Dana's traditional Spicer branded components, as well as the components and brands that Dana has acquired, including Clark,™ Clark-Hurth,™ Sige,™ Comaxle,™ Kirkstall,™ Spicer® GWB,™ Spicer® Italcandano,™ and Spicer® Ayra-Cardan.™ These acquired brands now fall under the Spicer brand name.

Contact your equipment dealer or one of our authorized Spicer service centers to request genuine Spicer components. They are there to support the original equipment manufacturer and their distribution channel. **To make sure you're getting genuine components, demand Spicer.**

For genuine, original equipment parts and service for all of these brands, the only name you need to know is Spicer.

Total Support

- Parts Marketing
- Custom Labeling
- Local and Global Parts Distribution
- Global Market Pricing
- Component Repair and Remanufacturing
- Technical Support and Field Training
- Direct Sales Support
- Customer Internet Ordering System at www.DanaMATE.com

We know that product support strongly influences your off-highway component purchases. That's why we back each sale with value-added service, maximizing your ROI for off-highway axles, transmissions, torque converters, electronic controls, driveshafts, and end fittings.

Our dedicated sales force is ready to assist you in developing strategies focused on genuine product support.

Global Capabilities That Deliver

Our quality parts won't mean much to you if we don't have the part you need, *when* you need it. We maintain an extensive product inventory, making parts readily available to you via two global distribution centers – one in Crossville, Tennessee, and the other in Mulheim, Germany. We also partner with authorized Spicer® service centers worldwide, allowing us to span the globe in minutes to respond to your requests.

Repair and Remanufacturing Options

The life of an off-highway machine can be significantly extended by using genuine original equipment parts and authorized service professionals. Our highly skilled technicians not only repair but can also remanufacture off-highway

axles, differentials, transmissions, and torque converters – using genuine Spicer original

equipment parts you can depend on.

RemanPlus™

In addition, our exclusive Exchange Unit Program provides the flexibility you need. In exchange for a part that needs reconditioning, we'll supply you with a part from our vast inventory. No matter what your needs may be, we can design a custom remanufacturing program for you.

Professionals Dedicated to Service

Our technicians are always ready to answer even your most complex questions. Using their practical knowledge and hands-on experience, they can support you in a variety of ways – from performing a field diagnosis to conducting new product training at your facility.

Crossville Distribution Center – USA

Mulheim Distribution Center – Germany

Technical Publications That Add Value

Our technical manuals are designed to do double-duty by providing invaluable training information along with practical maintenance tips. Manuals for new and recently released products are available in traditional print form, as well as via electronic cataloging. For more details, consult our parts and service site at www.Spicerparts.com.

Satisfying Each and Every Customer

At Dana Corporation, we know what it takes to be the world's leading source for off-highway components and services. Our global capabilities, comprehensive services, genuine parts, value-added support, remanufacturing options, and fast emergency response will maximize uptime for your vehicles.

To be a world-class provider of quality replacement parts and innovative support services – *that's our commitment to you.*
